

AMENDMENT UNDER 37 C.F.R. § 1.111
U.S. APPLICATION NO. 10/660,703

AMENDMENTS TO THE SPECIFICATION

Please amend the Abstract as shown below:

A map distribution system, includes an information center that stores the latest map information and a terminal device including a communication unit, a map storing unit, and a control information storing unit-map storing unit. The communication unit transmits information to the information center and receives information from the information center. The map storing unit stores map information. The control information storing unit stores control information associated with the map information. The terminal device transmits the control information to the information center every prescribed timings. The information center transmits the latest control information to the terminal device in response to the transmitted control information. The terminal device rewrites the control information stored in the control information storing unit to the latest control information.
